PROFILE

Transitioning from a career in e-commerce and general website duties to Full Stack Development and Information Technology. Bringing hands-on experience with ASP.NET, HTML, CSS, PHP, C#, and JavaScript, along with strong computer troubleshooting, problem solving, and communication skills.

WORK EXPERIENCE

E-COMMERCE SPECIALIST | ULTRASPEC, INC.

<http://www.ultraspec.com/> [Shopify]

Mar 2022-Present (Remote-Part Time)

- Maintained sites; set up payment gateways, shipping, and coupons; implemented security updates and measures; performed quality assurance; and improved site performances.
- Built out websites. Edited and designed eCommerce sites when it ran on an older cart and then managed the migration to Shopify. Additionally built, designed, and maintained a UK-based Amazon site.
- Design digital marketing materials, including display banners and promotional artworks that are featured on company websites.

E-COMMERCE ASSISTANT | STORE FIXTURES DIRECT, INC.

<http://www.storefixturesdirect.com/> [BigCommerce]

Dec 2018 – March 2023, (Remote-Part Time)

- Provided web support and troubleshooting for site issues in collaboration with the Customer Service department, ensuring that customer satisfaction was top priority.
- Handled SEO & search terms, page titles, and meta descriptions to improve and optimize site navigation, traffic, and analytics.
- Maintained the company's main eCommerce website and its other 4+ websites. Secondary responsibilities included designing and creating graphic artworks, and advertisements.

PROJECT EXPERIENCE

TEXTIUM [C# .NET, ASP.NET]

- Developed a mobile friendly website so users can transform text.
- Employed public APIs into the program to populate data samples.

AMAZON DATA FEED GENERATOR [C#.NET]

- Built a product feed generator that takes data entry and outputs feeds.
- Built the program to upload images to the FTP server.

NERDOM CERT EXAMS CCNA/CCNP [VB.NET, WinForms]

- Developed an IT certification practice exams software.
- Marketed the software in my eBay store on CD.
- Created an exam editor in VB .NET to edit exams and flashcards.

OTHER PROJECTS

- Built a CRUD application to keep track of listings [PHP, MySQL]
- Built an ASP.NET Core MVC portfolio [C#, ASP.NET]
- Built an ASP.NET Core MVC inventory program [C#, ASP.NET]
